

## ABOUT US

---

JUSTICEWATER works closely with communities in their fight for clean water and better sanitation by providing wells and toilets in rural villages.

JUSTICEWATER is a ministry of  
YOUTH WITH A MISSION

Imagine walking over 5km,  
carrying 25kg of water  
soon after giving birth.

# JUSTICEWATER TOGO

Empowering communities  
through providing access to  
safe drinking water and  
improved sanitation

## DANGERS COMMUNITIES FACE

---

- Families sharing filthy waterholes with their cattle, which leads to multiple health problems.
- Poor sanitation resulting in harmful bacteria spreading throughout their villages, homes, and kitchens.
- Safety issues for women returning at nightfall from distant water sources.
- Spiritual compromises: some Christians turn to animistic leaders in order to try and "cure" their illnesses and find "solutions" to their needs as a quick cultural solution.
- Family trust issues and community conflict caused by the distance it takes to find little or no water.
- Children missing school in order to provide water for their families.

## HOW WE TAKE ACTION

---

We believe that it takes community engagement to bring Biblical development that ignites lasting transformation in individuals' lives.

We are committed to bringing assistance by providing clean wells and toilets, and to help them understand the love of Jesus Christ.

Our team also evangelizes during meetings through communication and action. We team up with local pastors, churches, and/or missionaries who are already devoted to the spiritual care of the communities we serve. We believe this is an effective way to ensure continued care for the people, and to demonstrate God's love and the Good News in unity with the Body of Christ.

## JOIN IN ACTION

---

According to UNICEF, only 20% of Togo's population has access to clean water supply and only 9% have access to a safe toilet system.

Our goal is to provide 4 communities with wells and toilets each year. It costs \$15,000 USD for both projects in each village. We hope to raise a total of \$60,000 USD.
